The Monthly Rag of the Kings River Regulators

Stogie Johnson,

## Club Meeting in August

Well we stuck around after the shooting at the August shoot to discuss a few items of importance. First of all, at the shooters meeting it was decided that the stages would be posted **before** the match so you can check out what's coming and plan accordingly. An important topic was whether we would hold an annual in 2022, which was approved – so get ready to help everyone! There was also much discussion applying to host the state championship. At this time it looks like we will hold off on that.

Thanks to all who came to the meeting to share their input on club business.

---

---

## A Hot Time at the August Shoot

(but a good time!)

---

---

Badman Bob hosted the August shoot and what a great job he did! Knowing it would be hot he borrowed some great stages from the state shoot that would be challenging but fast to get us out of the heat. Thanks Badman Bob! But just what the heck is a “Double R Bar Rattler Sweep”? Sheesh! •

\*\*\*\*\*  
\*\*\*\*

Don't forget everyone: “rifle may not be last..”  
.....

## New Shooter at the KRR

\*\*\*\*\*

We would like to welcome a new shooter that joined us in August. Now he didn't have an alias, so we all promptly gave him on: **Slim**

It looks like he is associated with Poison Oakley, so hopefully her skills will rub off on him. Slim had a great time, and we hope to see him back to shoot with us again! PS- he is changing his alias... •  
PSS- He also already knows that the rifle may not be last.

+++++

Stogie Johnson,

guns until you come & talk to people or you'll blow it!" (how many of us can attest to that!)

## In the Noose

This month we are putting Sierra Rider In the Noose, so let's find out what the scoop is on this former KRR mayor!

This Cattle Baron served as Mayor of the Kings River Regulators for 8 years. Sierra has been a member of SASS from the mid-1990s & looked into cowboy action shooting after seeing it on TV. He thought that it was something he could do when he retired, so he spent 6 or 7 years getting his equipment together. After that he became a fixture at the KRR! Sierra enjoys travelling to other matches and loved shooting Winter Range in Arizona. The farthest he has travelled was New Mexico for End of Trail, but he has also shot in Washington and Oregon. He likes the travelling aspect of CAS because, "people everywhere are very helpful, like you've always been there". And the KRR is no different - Sierra notes that our facades are hard to beat, but our members are the best!

This long-time member has some advice for new shooters: "If you're new, don't buy

Well thank you High Sierra for chatting with us and for your years of service to the KRR!

---

---

### Don't forget that your rifle may not be last

So Rusty Shotgun had a great run after which Liberty Outrider said, "Thanks for making the rest of us look bad!" Rusty

Stogie Johnson,

replied, "That was not my intention, but it's an added bonus..."
